SAGE Reference - The SAGE Handbook of Regression Analysis ... Introduction In this chapter we first present the basic idea of linear regression and give a non-technical introduction. Next we cover the statistical basis of this method and discuss estimation, testing and interpretation of regression results. The third section is devoted to the presentation of an example analysis. chapters have demonstrated, the  
process of building a linear  
regression model, or any regression  
model, is aided by exploratory plots  
of the data, by reflecting on the  
experimental design, and by  
considering the scientific  
relationships between the  
variables.
